MY PRINCIPALES

Knowledge

Knowledge is what makes a human-aware. Share and accept knowledge creates a loop of learning and unlearning, and that is the point where we grow

Equality

Granting the same rights, challenges, problems, and solutions to everybody is the biggest act of self and social awareness, that leads to progress and growth.

Diversity

Learning about and experiencing different cultures is the greatest tool to enrich yourself and gain a broader perceptive (and start finding better solutions)

HOOBIES

Music Production Video Production Art
Human Biology Computer Indian Mysticism
